

Hi Sean;

Since I was a child I have loved hearing true Spirit stories, it gives you a sense of piece your loved ones are doing great and are happy in a life that we do not know but will someday.

you give huge insight into the future and although I have gone to you twice I will go to you again as it intrigues me how right you have actually got it.

I have sent many people to you who have all been as amazed as I was ~~they~~ that they too have gone back.

I can't tell you how many fortune tellers I've been to but its been quite a few and ^{diff} I have heard a phenomenal amount of stories about tea leaves, readers, and mediums but ~~none~~ none have come close to yours.

you are a very warm and calming person and you are truly gifted.

I would definitely recommend you to many more whether it be to reach out to a lost loved one, find insight into life, be intrigued by the unknown or all the above.

Thank you @ many kind RS,

Audrey
